ANNUAL REQUEST
LAND, LABOR AND FACILITIES
PROJECT MANAGEMENT CLASSIFICATIONS

- GREEN** Project will be managed as close to standard commercial practices common to the commodity and the area as possible. Some variations may occur to meet Research Project Leader objectives. Minor deviations from normal commercial practices may be requested and scheduled through *Work Order* requests.
- YELLOW** Essentially the same as category green, with up to three exceptions or restrictions to normal commercial practices. Deviations from normal commercial practices must be requested and scheduled through *Work Order* requests.
- RED** Research-intensive plots that do not fit normal farming practices should be placed in this category. All work must be requested and scheduled through written *Work Order* requests.

All operations, particularly harvesting, must be done in close cooperation and communication with the Research Project Leader or Cooperators.
